- 39.3 An affirmative determination shall be a prerequisite for award of the Contract to the Bidder. A negative determination shall result in disqualification of the bid, in which event the Purchaser shall proceed to the next lowest evaluated bid to make a similar determination of that Bidder's capabilities to perform satisfactorily.
- 39.4 Notwithstanding anything stated above, the Purchaser reserves the right to assess the Bidder's capabilities and capacity to execute the Contract satisfactorily before deciding on award.

Section III. Evaluation and Qualification Criteria

This Section complements the Instructions to Bidders. It contains the criteria that the Purchaser may use to evaluate a bid and determine whether a Bidder has the required qualifications. No other criteria shall be used.

Contents

1. Evaluation Criteria (ITB 37.3 (d))
2. Multiple Contracts (ITB 37.6)
3. Post qualification Requirements (ITB 39.2)
4. Domestic Preference (ITB 36.1)

1. Evaluation Criteria (ITB 37.3 (d))

The Purchaser's evaluation of a bid may take into account, in addition to the Bid Price quoted in accordance with ITB Clause 15.6, one or more of the following factors as specified in ITB Sub-Clause 37.3(d) and in BDS referring to ITB 37.3(d), using the following criteria and methodologies.

- (a) Delivery schedule. (as per Incoterms specified in the BDS)

The Goods specified in the List of Goods are required to be delivered within the acceptable time range (after the earliest and before the final date, both dates inclusive) specified in Section VI, Delivery Schedule. No credit will be given to deliveries before the earliest date, and bids offering delivery after the final date shall be treated as non responsive. Within this acceptable period, an adjustment, as specified in BDS Sub-Clause 37.3(d), will be added, for evaluation purposes only, to the bid price of bids offering deliveries later than the "Earliest Delivery Date" specified in Section VI, Delivery Schedule.

- (b) Deviation in payment schedule. [insert one of the following]

(i) *Bidders shall state their bid price for the payment schedule outlined in the SCC. Bids shall be evaluated on the basis of this base price. Bidders are, however, permitted to state an alternative payment schedule and indicate the reduction in bid price they wish to offer for such alternative payment schedule. The Purchaser may consider the alternative payment schedule and the reduced bid price offered by the Bidder selected on the basis of the base price for the payment schedule outlined in the SCC.*

or

(ii) *The SCC stipulates the payment schedule specified by the Purchaser. If a bid deviates from the schedule and if such deviation is considered acceptable to the Purchaser, the bid will be evaluated by calculating interest earned for any earlier payments involved in the terms outlined in the bid as compared with those stipulated in the SCC, at the rate per annum specified in BDS Sub-Clause 37.3 (d).*

- (c) Cost of major replacement components, mandatory spare parts, and service. [insert one of the following]

(i) *The list of items and quantities of major assemblies, components, and selected spare parts, likely to be required during the initial period of operation specified in the BDS Sub-Clause 19.3, is in the List of Goods. An adjustment equal to the total cost of these items, at the unit prices quoted in each bid, shall be added to the bid price, for evaluation purposes only.*

or

- (ii) *The Purchaser will draw up a list of high-usage and high-value items of components and spare parts, along with estimated quantities of usage in the initial period of operation specified in the BDS Sub-Clause 19.3. The total cost of these items and quantities will be computed from spare parts unit prices submitted by the Bidder and added to the bid price, for evaluation purposes only.*
- (d) Availability in Mauritius of spare parts and after sales services for equipment offered in the bid.

An adjustment equal to the cost to the Purchaser of establishing the minimum service facilities and parts inventories, as outlined in BDS Sub-Clause 37.3(d), if quoted separately, shall be added to the bid price, for evaluation purposes only.

- (e) Projected operating and maintenance costs.

An adjustment to take into account the operating and maintenance costs of the Goods will be added to the bid price, for evaluation purposes only, if specified in BDS Sub-Clause 37.3(d). The adjustment will be evaluated in accordance with the methodology specified in the BDS Sub-Clause 37.3(d).

- (f) Performance and productivity of the equipment. *[insert one of the following]*
 - (i) An adjustment representing the capitalized cost of additional operating costs over the life of the plant will be added to the bid price for evaluation purposes if specified in the BDS Sub-Clause 37.3(d). The adjustment will be evaluated based on the drop in the guaranteed performance or efficiency offered in the bid below the norm of 100, using the methodology specified in BDS Sub-Clause 37.3(d).

or

- (ii) An adjustment to take into account the productivity of the goods offered in the bid will be added to the bid price for evaluation purposes only, if so specified in BDS Sub-Clause 37.3(d). The adjustment will be evaluated based on the cost per unit of the actual productivity of goods offered in the bid with respect to minimum required values, using the methodology specified in BDS Sub-Clause 37.3(d).
- (g) Specific additional criteria

Other specific additional criteria to be considered in the evaluation, and the evaluation method shall be detailed in BDS Sub-Clause 37.3(d)]

2. Multiple Contracts (ITB 37.6)

 - (i) the lowest-evaluated bid for each lot and
 - (ii) the price reduction per lot and the methodology for its application as offered by the Bidder in its bid.

3. Post-qualification Requirements (ITB 39.2)

After determining the lowest-evaluated bid in accordance with ITB Sub-Clause 39.1, the Purchaser shall carry out the post-qualification of the Bidder in accordance with ITB Clause 39, using only the requirements specified. Requirements not included in the text below shall not be used in the evaluation of the Bidder's qualifications.

Notes on Locally manufactured goods

Locally Manufactured Goods -Value-added criterion

The goods have been produced in Mauritius wholly or partially from imported materials (or materials of unknown origin) and the value added resulting from the process of production accounts for at least 25% of the ex-factory cost of the finished product.

Explanation:

The value added is the difference between the ex-factory cost of the finished product and the c.i.f. value of imported materials used in production.

Ex-factory cost means the value of the total inputs required to produce a given product. In applying this criterion, domestic material content may be either low or non-existent in the composition of the products.

Calculation of ex-factory cost:

The following costs, charges and expenses should be included:

(a) The cost of imported materials, as represented by their c.i.f. value accepted by the Customs authorities on clearance for home consumption, or on temporary admission at the time of last importation in Mauritius where they were used in a process of production, less the amount of any transport costs incurred in transit.

Provided that the cost of imported materials not imported by the manufacturer will be the delivery cost at the factory but excluding customs duties and other charges of equivalent effect thereon;

(b) The cost of **local materials**, as represented by their delivery price at the factory;

(c) The cost of **direct labour** as represented by the wages paid to the operatives responsible for the manufacture of the goods;

(d) The cost of direct factory expenses, as represented by:

- the operating cost of the machine being used to manufacture the goods;
- the expenses incurred in the cleaning, drying, polishing, pressing or any other process, as may be necessary for the finishing of the goods;
- the cost of putting up the goods in their retail packages and the cost of such packages but excluding any extra cost of packing the goods for transportation and the cost of any extra packages;
- the cost of special designs, drawings or layout; and the hire of tools, or equipment for the production of the goods.

(e) The cost of **factory overheads** as represented by:

- rent, rates and insurance charges directly attributed to the factory;
- indirect labour charges, including salaries paid to factory managers, wages paid to foremen, examiners and testers of the goods;
- power, light, water and other service charges directly attributed to the cost of manufacture of the goods;
- consumable stores, including minor tools, grease, oil and other incidental items and materials used in the manufacture of the goods;
- depreciation and maintenance of factory buildings, plant and machinery, tools and other items used in the manufacture of the goods

The following costs, charges and expenses **should be excluded**:

(a) **Administration expenses** as represented by:

- office expenses, office rent and salaries paid to accountants, clerks, managers and other executive personnel;
- directors' fees, other than salaries paid to directors who act in the capacity of factory managers;
- statistical and costing expenses in respect of the manufactured goods;
- investigation and experimental expenses.

(b) **Selling expenses**, as represented by:

- the cost of soliciting and securing orders, including such expenses as advertising charges and agents' or salesmen' commission or salaries;
- expenses incurred in the making of designs, estimates and tenders.

(c) **Distribution expenses**, represented by all the expenditure incurred after goods have left the factory, including;

- the cost of any materials and payments of wages incurred in the packaging of the goods for export;
- warehousing expenses incurred in the storage of the finished goods;
- the cost of transporting the goods to their destination.

(d) **Charges not directly attributed to the manufacture of the goods**:

- any customs duty and other charges of equivalent effect paid on the imported raw materials;
- any excise duty paid on raw materials produced in the country where the finished goods are manufactured;
- any other indirect taxes paid on the manufactured products;
- any royalties paid in respect of patents, special machinery or designs; and
- finance charges related to working capital.
